Beast 1333 - 3 13 33 lyrics

(Intro) m**m preaching I do not know... feel free to clarify

(Verse 1)

Don't feel confused so many religions to choose I was raised to
worship and pray to the king of the j**s I stay looking for clues a
sign for something divine I accepted uberist and drank his blood
through wine I prayed hard looking at the cross

Did my confirmation is it god who designed the universe and
constellations is it god who blew the life into the lungs of adam
and eve was it god that helped moises when he parted the sea I
wanna believe I read the bible and started to bleed it's harder for
me I come from generations of the darkness people inherited
through lineage I fell into a darker evil due to circumstances
beyond my control before I was conceived they promised evil my
soul on your mark get set go ima live with a mess and Im
relishing your anguish and temptations of the flesh Jesus catch
me in a net and bring me into your divinity the demons that
surrounded me have given me abilities agility and lashing
tongues and Gnashing of the teeth Im prophetic having visions of
the end in my sleep

(Satan! Satan ! our lord and master)

(Chorus)

3 13 33 3 plus 8's

3 13 33 every place

3 13 33 all my numbas

3 13 33 is among us

3 13 33 on your feet

3 13 33 it's the beast
